LE Type Flush-Mounted Faceplates

LE Type Faceplates are flush-mounted US standard plastic faceplates. They offer contoured edges for a contemporary appearance and are available in one, two, three, four and six port configurations. These plates will accept all CommScope UTP/FTP modular information outlets for voice and data, as well as most fiber optic adapters and couplers.

The LE style plates are also compatible with CommScope's multimedia adapters and couplers. Mounting screws, label covers and label cards are included. Available in six colors.

FP Type Flush-Mounted Faceplate System

The FP Type (Flexible and Tamper resistant) Faceplate Systems provide front access to support future moves, adds and changes without removing the faceplate frame from the wall. The FP system will accommodate all CommScope UTP/STP Information outlets for voice and data, adapters for Video and audio, as well as most fiber optic adapters and couplers. CommScope offers a broad selection of multimedia adapters/couplers that are compatible with any of the FP system adapter housings and frames. In addition, the faceplate frames will accommodate specially designed CommScope S-video, VGA, RCA and DVI bezels also offered in this section. The FP system allows the user to customize each specific application according to the media types and interface required.

# FP Type (Flexible) Faceplate Frames

There are 2 major components that comprise the FP (Flexible) system:
(1) Select a faceplate frame: Single gang (M13) "OR" double gang (M26).
(2) Select the needed adapter housing(s): (M30FP) Adapter housings are offered in "unloaded" single port, dual port, or blanks. Specially designed adapter housings are also available that come pre-populated with S-video, VGA, DVI or a 3 port RCA.

- Flexible Faceplate Frames include: Faceplate Frame, Mounting screws, label covers and labels.
- Adapter housings, Information Outlets, Adapters and couplers, icons, and related accessories are ordered separately.
- Frames and Adapter Housings are available in four color choices.

FP Type (Tamper Resistant) Faceplate Frame Kits

The FP Type (Tamper Resistant) Faceplate is a front access faceplate designed to provide security to the connection points being made at the work space location.

It provides a degree of protection from intentional or inadvertent removal of the connection points at the faceplate with a secured transparent cover that allows for easy visual inspection. The Tamper Resistant Faceplate Frames are constructed so that the housings and subsequent outlets or adapters are positioned at a 45 degree downward angle, providing bend radius protection and strain relief on the cables and connection points. Optional graphical and color coded icons provide a means for color-coding on the faceplate frame for easy service identification. Each kit includes all necessary hardware for mounting the frame, in addition to a std. Philips head screw and Torx head screw to secure the protective cover.

There are two major components that comprise the FP (Tamper Resistant) kit: (1) Select a faceplate frame kit: Std. profile (M13FP-TR) "OR" Low profile (M13FP-TR1) (2) Select the needed adapter housing(s): (M30FP) Adapter housings are offered in "unloaded" single port, dual port, or blanks. Specially designed adapter housings are also available that come pre-populated with S-video, VGA, DVI or a 3 port RCA.

- Tamper Resistant Frame kits include: Faceplate frame, Protective cover, All necessary mounting and security screws, label covers and label cards
- Frame Kits are available in a std. profile or low profile in two color choices
- Adapter housings, Information Outlets, Adapters and couplers, Icons, and related accessories are ordered separately.

FP Type Adapter Housings

Left: M30FP-1RJ45-246, Top: M30FP-2RJ45-246, Right: M30FP-BLANK-246

M30FP adapter housings are offered in empty 1 port, 2 port or solid blanks. Pre-populated adapter housings for audio and video are also available with S-video, VGA, and RCA adapters. M30FP (empty) adapter housing will accept all CommScope UTP/FTP modular information outlets for voice and data, as well as, most fiber optic adapters and couplers.
Note: In addition to the FP system frames, the M30FP Type adapter housings are also compatible with all 200 series Surface Mounted Boxes.

RCA and S-Video (SVHS) Adapters for the FP type frames are front access adapters that will accommodate the flush mount S-Video Adapter and the 3-Port RCA Adapter. These adapters will easily snap into the FP type faceplate. The RCA Adapter uses a 110 IDC (Insulation Displacement Contact) block to directly terminate the 4-pair building wiring. RCA outlets are used for connecting audio and video appliances to 24 AWG UTP wiring.

Left: M30FP-SVHS-110, Top: M30FP-3RCA-110, Right: M30FP-VGA-PT-003

The S-Video Adapter uses a 110 IDC block to directly terminate to 4-pair building wiring. The S-Video or Super VHS (SVHS) Modular Adapter provides baseband video connectivity to 24 AWG UTP wiring. These outlets provide point-to-point transmission of analog baseband National Television System Committee (NTSC)/Phase-Alteration Line (PAL) SECAM S-Video signals.

SP-L Type (Stainless Steel - Labeled) Faceplates

Left: M13SP-L, *Right:* M16SP-L

SP-L Type Faceplates are flush-mounted US standard stainless steel faceplates that provide a labeling feature. They are available in one, two, three, four, six and eight port outlet configurations.

These plates will accept all CommScope UTP/FTP modular information outlets for voice and data, as well as a select group of fiber optic adapters and couplers.

The SP-L Type plates are also compatible with CommScope's multimedia adapters / couplers. Mounting screws, label covers and label cards are included.

SP-L Type Flush-Mounted Faceplates (Labeled)

Product Number	Detailed Description	H x W x D	Material ID

MMFP Type Flush-Mounted Multimedia Faceplate

M10MMFP-246

The M10MMFP Faceplate provides the opportunity to deploy copper and fiber media to the workstation for new and existing installations. The product enables you to fasten a flush-mount faceplate (i.e. M12L, M14L, M12LE, M14LE, etc.) to the front of the unit—for installation of up to 6 copper CommScope information outlets and provides alternatives for fiber connectors installed vertically at the base of the product. It may be configured with ST, SC or LC adapters in various densities.

Adapter plates are provided for use with the SC duplex, LC duplex or the high-density modular adapter strips available for ST, SC and LC connectors. The plates can be installed either right at the base (exposed) or recessed in unit, providing additional protection for the fibers. Additionally, the fiber adapter strips provide high-density capability for customer applications.

The M10MMFP incorporates fiber slack storage to manage fiber termination. The M10MMFP also features either rear (4) or side (2) entry ports for cabling, providing flexibility for either wall-mount or raceway installs.

The attractive cover snaps onto the base, providing protection for the fiber connections. The cover also provides labeling features such as a paper label for circuit identification and plastic icon strips (in 9 colors). In addition, the cover may be attached to the base with the screws, affording tamper resistance.

The M10MMFP Multimedia Faceplate includes: 1 multimedia unit (cover and base); 3 Fiber Adapter Plates- SC Adapter Plate, LC Adapter Plate and Plate for SC, ST or LC adapter strips; 1-1/4 in truss head screws; K35 by 12 mm pan head Phillips PT® screws; label; clear plastic label cover; installation instructions; plastic icon strips in 9 colors (gray, blue, yellow, orange, red, white, brown and purple).

Mounting Frames

Flush-Mounted Modular Mounting Frames

The M105, M106 and M108 Modular Mounting Frames are flush-mounted multi-outlet modular mounting frames designed for use with all CommScope modular information outlets. The 105 and 106 series mount behind a standard 106 NEMA faceplate. 108 series frames mount behind standard Decora electrical faceplates.

Physical Specifications:

Plastic: High-impact, flame retardant, UL-rated 94 V-0, thermoplastic

Mounting Frame
(Extron Cable Cubby®)

The CommScope 6-Port Adapter Plate for Extron Enclosure Applications allows the user to integrate any CommScope information outlet, adapter or coupler into an Extron Cable Cubby type enclosure. The metal adapter plate features a snap-in plastic bezel and four K-Lock nuts to secure the unit inside the enclosures.

Using the CommScope adapter plates in unison with the Extron Cable Cubby extends the choices of audio, video, and data connections to the user work space in an enclosed and very aesthetically pleasing manner. Typical environments that benefit from this combination of products would range from commercial office or educational facilities, as well as high-end residential and retail spaces.

MMO Type Flush-Mounted (Angled) Faceplate
M14MMO-246

This 4-Port Faceplate is designed to mount on a wall surface and will fit any standard National Electrical Manufacturers Association (NEMA) electrical box. The flush-mounted faceplate has 45 degree angular ports for fiber and copper connectors and has a protective angled hood. The hinged base of the faceplate allows changes and maintenance to occur without reinstalling the faceplate. The fiber organizer spool bend-radius provides control and storage for fiber slack.

This faceplate can be used in the following environments:
- In an ALL COPPER environment, the 4-Port Flush Mount Faceplate will support up to four CommScope information outlets, four LC mounting modules, or adapters. When fiber is introduced into the application, the number of ports available for connectors is reduced by one
- In an ALL FIBER environment, the M14MMO will support two simplex ST or SC connectors, four LC connectors, or two duplex SC connectors
- In an integrated FIBER/COPPER environment, the 4-Port Flush Mount Faceplate will support one CommScope information outlet and two simplex SC or ST connectors, or one CommScope information outlet and one duplex SC connector

Physical Specifications:
Plastic: High-impact, flame retardant, UL-rated 94 V-0, thermoplastic
Hood & Faceplate Depth: 2.77" (7.0 cm)
Hood, Faceplate & Spool Depth: 5.30" (13.5 cm)

M4CA Type (Adjustable) Furniture Facepate

M4CA Faceplate is designed for modular furniture applications requiring either fiber and/or copper connectivity. The M4CA will accommodate up to 4 CommScope information outlets or adapters. The M4CA will also accommodate 4 fiber modular telecommunications outlets such as the "LC couplings and jumpers for modular furniture" within TIA standard cavity depth of 1.2 inch minimum. The angle mount fiber jumper assemblies may also be used with this faceplate.

M4CA-262

Modular office furniture manufacturers have used a wide range of panel openings for their data and voice outlets. The M4CA will adjust to fit many of these. It may be mounted on any flat surface with a material thickness of 0.025 in. to 0.125 in. (0.63 mm to 3.18 mm). It may be easily installed in any rectangular opening size ranging from 1.7 in. high by 2.792 in. wide (4.32 cm x 7.09 cm) to 2.375 in. high by 4.125 in. wide (6.03 cm x 10.48 cm).

The surface finish is the same as that used on the LE series faceplates. Each M4CA kit includes frame, cover, latch bars (shipped attached to the frame) and a paper label that may be used for identification of each port, along with a protective clear plastic label cover.

Physical Specifications:
Plastic: High-impact, flame retardant, UL-rated 94 V-0, thermoplastic

M13C/M13CLS Type Furniture Faceplates

Left: M13CLS-003, Right: M13C-246

The M13C and M13CLS Modular Furniture Triplex Outlet Faceplates are flush mounted triplex modular faceplates designed to fit modular furniture raceway covers for the following SteelCase furniture lines: (E)9000, Segment (with correct bezel), Answer, Montage, Avenir, Elective Elements and Contex. The M13C holds up to three CommScope information outlets and has numbering on both sides of the faceplate for installation and maintenance identification. The M13C Faceplate is used in an opening size of 1.38 in. (35.1 mm) in height and 2.71 in. (68.8 mm) in width (dimensions are +/-.01 in).

The M13CLS Faceplate is part of the LazrSPEED Solution and it holds modules that snap in vertically and can also be angled. The M13CLS Faceplate is used in an opening size of 1.375 in. +/- 0.025 in. (34.93 mm +/- 0.64 mm) in height and 2.700 in. +/- 0.050 in. (68.58 mm +/-1.27 mm) in width. This 1.38H x 2.71W dimension is part of the TIA569 spec for modular furniture.

M14CE-E Modular
Furniture Faceplates

The M14CE-E consists of a faceplate frame, 4-port faceplate label and label cover. It is designed to mount to a TIA-569 specified modular furniture opening of 2.71 inches (6.9 cm) inches wide by 1.38 inches (3.5 cm) high. The 4 port faceplate snaps easily into the frame.

The M14CE-E consists of two versions. Both versions have modified frames to allow easier routing and termination of cable diameters up to .315 inches (0.8 cm). The M14CE-E .08 fits into wall thickness up to .08 inches (2 cm) and the M14CE-E .125 fits into wall thickness up to .125 inches (3.2 cm).

M30MC Mounting Collar

M30MC-246

The M30MC Mounting Collar is designed to fit into a rectangular opening. The width of the opening will always be 0.763 inch (19.38 mm). However, the height of the opening is variable based on the thickness of the material into which the collar is pressed. The material thickness is restricted to the range, 0.025 inch to 0.125 inch (0.64 mm to 3.17 mm).

The M30MC collar supports a single voice or data outlet or any M81 series adapter or coupler.

Physical Specifications:
Plastic: High-impact, flame retardant, UL-rated 94 V-0, thermoplastic

M30CC Mounting Collar

The M30CC Circular Collar is a plastic circular collar designed to support CommScope information outlets. The M30CC can be used in furniture such as a desk or cabinet, on a flat wall panel, or on a flat metal panel. The supporting panel or wall structure must be between 0.04 in. and 0.13 in (0.1 cm and 0.32 cm) in thickness, inclusively.

The M30CC collar supports a single voice or data outlet or any M81 series adapter or coupler.

M40 Surface Mount Box and Accessories

The M40 is a surface-mounted plastic enclosure designed to support a copper/fiber intergrated environment, an all copper environment or an all fiber environment.

The M40 design makes it versatile by utilizing removable panel inserts allowing termination of copper, fiber or composite cables. Panels are available to hold CommScope information outlets or adapters, ST, SC and LC adapters.

The M40 outlet comes equipped with one M40RJ4A and one M40ST8 panel. Other panels and accessories must be ordered separately.

Accessories For Surface
Mount Boxes (100 Series)

The SMBFG fiber organizer has a small spindle to protect and support the fiber bend radius and two guides to route the fiber to the connector. It supports up to four fibers in an all-fiber environment in the M106SMB modular surface mount box and supports up to six fibers in an all-fiber environment in the M112SMB modular surface mount box.

The 345A mounting magnet contains two magnets and is used with the M104SMB modular surface-mount box.

The 362PS zone wiring kit labels are used with the M106SMB and M112SMB modular surface mount boxes.

The D180880 mounting magnet kit contains four magnets and is used with the M106SMB and M112SMB modular surface mount boxes.

M200 Surface Mount Boxes

200 Series Surface Mount Boxes are designed for interior surface mount applications and can support copper and fiber terminations. All information outlets simply snap into place. The 2, 4, and 8-port boxes are UL-rated and available in four standard colors.

The 200 series surface mount boxes can support new generation, larger diameter data cables, and offer multiple cable entrances through the base and/or sides.

The 200 series surface mount boxes are equipped with the corresponding number of dust covers and two port adapter housings. These adapter housings support two outlets each. A variety of other adapters are available but not included to configure LC, ST and SC fiber couplers, copper outlets, VGA, S-Video, Coax, BNC, and RCA couplers.

M204SMB-003

Features and Benefits:
- Support a wide range of applications and configurations using the following snap-in components: 8 Position Modular Outlets; S-Video Outlets;
  VGA Adapters; RCA Adapters; BNC Adapters; Coaxial Couplers
- Can support new generation, larger diameter data cables
- Cable entrances available through the base and/or sides
- Can mount to solid surfaces or single gang electrical boxes
- Easy front access to outlets, adapters and couplers
- Includes dust covers, cable ties, labels/label holders, adhesive backed velcro, double sided tape and screws
- Comes with label and label cover as well as a smooth surface for labeling the front of the enclosure
- Snap-in fiber spool is included to assist with fiber management (does not apply to the M202SMB and M204ASMB)
- Material: Plastic

M208SMB-246

Applications:
- Consolidation point for zone wiring
- High speed data applications where larger cables are required (10G)
- Multimedia applications using copper, fiber and coaxial
- Utilized on kick plates for modular office furniture
- Plenum version for wireless access points and IP cameras

M224 Type Zone Box

M224CPN-246

The low profile M224CPN Consolidation Box is introduced as an enhancement to the zone wiring architecture.

This product provides a connection and distribution point for data and telecom cables in installations requiring a consolidation point. The slim design permits installation in a variety of non-plenum spaces such as under floors, limited space closets, inside paneled furniture, on walls in plain view and on shelves. The box can be mounted, with additional support, to single- or dual-gang electrical type boxes. For best results, the box is mounted on a flat surface, horizontally or vertically. The M224CPN is substantially smaller than the M36P (36-Port plenum) box, only 27% of the box volume and 36% of the box area.

The box design utilizes four removable panels that can accommodate a variety of copper and fiber based connectors. Each panel will hold up to six connectors each. The box has a capacity of 24 dual SC connectors, single SC connectors, dual LC connectors, ST connectors, copper outlets, S-Video, RCA, BNC and F-type video connectors, or any combination thereof. Connector types can be mixed and matched within the box by using two different panels. The box comes equipped with four 6-port inserts, two blank inserts, 12 dust covers for port openings, closing screws, wire ties, and instructions.
This panel has the most variety in connector options; it accommodates all but the dual SC connectors.
Three fiber optic splice organizers are available which will accommodate fusion, mechanical or mass fusion splices.

Features and Benefits:
- Non-metallic housing
- 24-Port capacity
- Accommodates copper information outlets, fiber connectors and copper and fiber terminations
- Can be populated with any CommScope voice, data or video outlet
- Expandable/Stackable features
- Easy access for terminations and moves, adds and changes
- Designed for mounting in various non-plenum environments
  (i.e., on the floor, under floor tile, surface mount, wall, furniture, inside cabinets)
- Supports cable/port labeling
- Equipped with removable cover section for cord/label access that does not expose horizontal cables/terminations

Physical Specifications:
Burn Rating: Non-plenum

SOLUTIONS

M36CPP Type Zone Box

The M36CPP Data/Communication Distribution Box is a zone wiring box (i.e. consolidation point [CP]) that provides for the distribution of data and telecommunication signals throughout the work area environment. The box has 36 positions for copper and/or fiber connectors. It is intended to mount above ceilings or below floors in open office buildings.

The key benefit is that it saves costs in moves, adds and changes (MACs) when zone cabling is required in a plenum environment. The Box is UL Listed to meet the stringent plenum requirements. The National Electric Code allows locating this type of zone box in space used for environmental air.

M36CPP DATA

The M36CPP Distribution Box Assembly comes with: connector bracket, plenum cover, plenum box, foam fence, fiber reel (optional to use), foam retainer, bushing (optional to use), fire foam, interconnection label, installation instructions, hex nut (No. 4-40), long pan-head screw (No. 8-32 by 3/38 in [9.5 mm]) and plenum cable tie.

M48CPP

The 48-Port Plenum Zone Wiring Box provides a connection and distribution point for data and telecom cables in installations requiring a consolidation point. The design includes a 3.35 in x 2.566 in (85.04 mm x 65.18 mm) rectangular bottom knockout to be used in conjunction with a standard dual-gang electrical box, in addition to twelve 0.75 in (19.05 mm) knockouts for use with conduit.

The size of the M48CCP design will allow installation in a variety of plenum spaces such as under floors and above ceilings. The design has 48 positions that accommodate a variety of copper, fiber and video connectors. It also has one fire foam entrance and four fire foam exit areas for plenum-rated cable (4-pair and 25-pair).

Features:

- 48-port capacity
- Support copper outlets, fiber connectors, copper and fiber terminations
- Easy access for terminations, moves, adds and changes
- Designed for mounting in various plenum and non-plenum environments (floor, under floor, surface mount or wall)
- Supports cable/port labeling
- Equipped with removable cover section for cord/label access and does not expose horizontal cables

L, LE and FP Type Faceplate Labels and Label Covers

Labels are on 8-1/2 x 11 inch sheets of paper that are to be used with a printer. The labels are easy to punch out since the paper is perforated in the shape of the labels. The clear label covers protect and hold the labels in place.

L, LE and FP Type Faceplate Labels and Label Covers

Product Number	Detailed Description	Min. Order Quantity	Material ID
L Type cover	L Type Faceplate Label Cover	5 pkgs, 100 covers per pkg.	108492927
LE/FP Type Cover	LE/FP-Type Faceplate Label Cover	5 pkgs, 100 covers per pkg.	108492935
L Type Labels	L Type Faceplate Label Card Sheet	50 pkgs, 10 sheets per pkg.	108492943
LE/FP Type Labels	LE/FP Type Faceplate Label Card Sheet	50 pkgs, 10 sheets per pkg.	108492950

M20/M21/M81 Dust Covers

The M20AP Covers are dual-purpose blank Dust Covers designed for use with the modular outlets and modular faceplate kits (except for the Shuttered clips and Benelux faceplates). When the M20AP is used as a Dust Cover, it is inserted over the outlet opening and will protect the jack wires from dust. The M20AP can also be used with modular faceplates as a blank cover for empty jack openings which are not populated with modular outlets.

The M21A Dust Covers are for use with CommScope information outlets. The M21A installs over the Jack opening of the outlet, leaving the Icon area visible.

The M20AP and the M21A are packaged 100 to a bag with 5 bags in a box.

The M81 (Blank) is a rear snap-in dust cover to fill empty or unused ports in all CommScope faceplates, surface and multi-media boxes, Mod style panels or related mounting housings where you would normally deploy an outlet or adapter.

Physical Specifications:
Plastic: High-impact, flame retardant, UL-rated 94 V-0, thermoplastic

M60/M61 ICON Inserts

M61

The M60 and M61 ICONs are small plastic inserts used to depict applications on the Commscope information oulets. Both the M60 and M61are packaged in 25 in a polybag and 20 polybags in a box.

The M60 is a single piece ICON that mounts with the jack into the faceplate opening. When installed with the jack and faceplate the M60 ICON appears directly above the jack and is flush with the faceplate.

- Telephone—symbol representing a telephone application
- Computer—symbol representing a computer application
- DATA—word representing a data application
- VOICE—word representing a voice application
- Blank—has blank space for writing or denoting
  any application the user may designate or require

The M61 ICON is a strip of (3) ICONs. Each ICON in the M61 ICON strip will mount directly to the MGS style jack.

- GS—GigaSPEED representing GigaSPEED application either Cat6 or Cat6A
- MPSE—Power Sum representing Cat5E
- Comp—Computer symbol representing computer application
- Data—Word representing data application
- Voice—Word representing voice application
- Blank—Blank space for denoting any application the user may designate or require

Modular Faceplates and
Clips UK Applications

M12D Faceplate with LF00 Clips

The range of UK Standard Information Outlets consists of the M12D and M14D Faceplates and the LF80 and LF00 Clips. The M12D is a flush mounted, duplex, 2-gang UK/Ireland standard faceplate designed to accept two LF80 or LF00 clips (or any combination of the two). The M14D is a flush mounted, quadplex, 4-gang UK/Ireland standard faceplate designed to accept four LF80 or LF00 clips (or any combination of the two). The standard package for each includes the faceplate plus two mounting screws for installation in a UK standard 45 mm (for Mark V) or 32 mm (for Mark VI) electrical box.

The LF80 Clips (Mark V and Mark VI) fit into the M12D and M14D and accept one high-density module. The Mark V is equipped with a spring-loaded shutter to protect the HDM from dust. It can be cabled through the faceplate and fits into minimum 45 mm depth boxes. There is a provision for port labeling. The Mark VI is angled and has a unique shutter design. It can be cabled through the faceplate and fits into minimum 32 mm depth boxes.

The LF00 Clip is a blank snap-in clip used in vacant slots of the M12D or M14D faceplate.
The LF82 accommodates the GigaSPEED X10D MFP520 information outlets.

Physical Specifications:

Height: Faceplate: 8.50 cm
Clip: 3.8 cm
Width: Faceplate: M12D = 8.5 cm, M14D = 14.6 cm
Clip: 2.5 cm
Depth: Faceplate: 0.90 cm
Mark V and LF00 Clip: 1.4 cm
Mark VI Clip: 2.0 cm

Modular Faceplates and Clips
Germany/Benelux Applications

The range of German/Benelux standard Information Outlets include the M18930 Surface Outlet, M18932 Flush mount Centerplate, M02714 Coverplate and M81 Dust covers.

The M18930 Outlet is a surface mounted duplex M-Series Modular Information Outlet designed for use with two M-Series high-density modules. The outlet openings have provision for label identification.

The M18932 Centerplate is a flush mounted Centerplate which is also designed to accept two M-Series HDM's. The M18932 mounts in a German/Benelux standard electrical box with centerplate mounting dimensions of 60 mm center to center and with a minimum depth of 32 mm. The outlet openings have provision for label identification.

The M02714 flush mount coverplate is used with the M18932 centerplate to provide a frame around the mounting screws of the centerplate.

The M81 are dust covers designed for use with the M18930 and M18932 faceplates. The M81 is used in empty jack openings which are not populated with high-density modules.

The CommScope® M12GER-F/UTP 2-port modular furniture German Faceplate can accommodate all Foil Twisted Pair (F/UTP) modules for CommScope networking solutions. Unshielded Twisted Pair (U/UTP) and fiber modules may be deployed as well. The M12GER-F/UTP provides a grounding solution for F/UTP and its angle feature can provide a solution that will not cause kinking with the size of today's larger cables when looped in an electrical box while using conduit. Dust shutters offer protection for avoiding leaf spring contamination.

The M12GER-F/UTP faceplate accepts two high-density modules and is designed specifically for the German market. The faceplate can be mounted into a German standard electrical box and it features a provision for labeling above the port openings.

The M18932-246 and the M18932-262 accommodate the GigaSPEED X10D MFP520 information outlets.

The M30 Mounting Collar accepts a single module and is equipped with a grounding hook that provides a low-resistance grounding solution for F/UTP outlets. The M30 is designed specifically for the German market. The dimensions and structure of the mounting collar match many competitors faceplates as well as many custom applications. Its improved opening configuration provides a rotation option for U/UTP outlets.

Single Port and Dual Port Faceplates
French Applications

Single Port Faceplate

The French Single Port Faceplate accepts one high density module and the Dual Port accepts two high density module(s). The Single Port faceplate is equipped with a spring-loaded shutter to protect the HDM from dust. It is designed specifically for the French market and fits in the Legrand Mosaic faceplate. There is provision for port labeling.

The French Single and Dual Port Faceplates accommodate the GigaSPEED X10D MFP520 information outlets.

Dual Port Faceplate

Detailed Description	H x W x D	Color	Material ID
French Single Port Shuttered Faceplate*	4.5 x 4.5 x 2.7 cm	White	760091090
French Dual Port Unshuttered Faceplate*	4.5 x 4.5 x 2.7 cm	White	760091082
LF81	2.5 x 5.0 cm	Black	999901670

Modular Faceplates and
Clips Scandinavian Applications

The MFUGA Scandinavian Faceplate is a dual flush mount faceplate which mounts in a FUGA box (or equivalent) and accepts two high-density modules. It consists of the cover and baseplate.
The MFUGAS Scandinavian Faceplate is a single flush mount faceplate which mounts in a FUGA box (or equivalent) and accepts one high-density module. It consists of the cover, baseplate and mounting plate.

The MTDL80 Universal Faceplate is a dual semi-surface mounted faceplate which can be surface or flush mounted on a standard electrical box (60 mm mounting) and also mounted on any type of electrical trunking. It accepts two high-density modules. It comes complete (without HDMs) and ready to mount.

The M12D OPUS Faceplate is used in the OPUS, SENSIQ 66x66 and EPUS 66x66 switch and socket outlet system. It should be mounted together with mounting frames. It is suited for use in Denmark, East and North European markets.

The MCAN Faceplate is a dual flush mount faceplate which mounts on a CAN/Clickline electrical box (or equivalent) and accepts two high-density modules. The MCAN Kit consists of a faceplate and an adapter frame for mounting in a standard IEC (c/c 60 mm) electric box. The MCAN Adapter Frame provides secure and tidy mounting for the MCAN Faceplate in a standard IEC wall box (c/c 60 mm). The MFUGA-262 and MCAN-DL-262 accommodate the GigaSPEED X10D MFP520 information outlets.

MFUGA

Product Number	Detailed Description	H x W x D	Color	Material ID

Modular Faceplates and
Clips Italian Applications

Light and Living Faceplates

Light Tech and Magic Faceplates

The LF82IT and LF83IT Clips each accept one high-density module and are designed specifically for the Italian market. The LF82IT Clip is black in color while the LF83IT is ivory. The LF82IT and LF83IT Clips fit in a standard Italian faceplate which can be mounted onto an Italian standard electrical box with a minimum depth of 32 mm. There is a provision for port labeling.

The Living faceplate accommodates the GigaSPEED X10D MFP520 information outlets.

Product Number	H x W x D	Color	Material ID
Living	4.39 x 2.48 x 2.50 cm	Black	106961311
Magic	4.39 x 2.48 x 2.50 cm	Ivory	106961329
Light	4.39 x 2.48 x 2.50 cm	White	108086638
Living International	4.39 x 2.48 x 2.50 cm	Black	108086646
Light Tech Adapter	4.39 x 2.48 x 2.50 cm	Grey	999901820
MATIX Adapter	4.39 x 2.48 x 2.50 cm	White	999901821

Modular Faceplates
Swiss Applications

Novo Faceplate

The range of Swiss standard Information Outlets includes the four port Novo and Standard White Flushmount Outlets which mounts into Swiss electrical boxes. The Outlets are designed for use with four M-Series high-density modules. They come complete, ready to mount with two caps. The White FLF modular furniture duplex outlet faceplate holds up to two M-Series modular outlets or M81-Series mounting modules. The FLF Faceplate is designed to fit Steel or plastic modular furniture and raceways and is used in an opening size of 62x37mm. The FLF outlet is designed for higher density of outlets at the workplace.

Detailed Description	Color	H x W x D	Material ID
